

SMS X HANDLE MOBILE

Stable course towards lessons and presentations.

With this accessory you can roll your presentation equipment easily and safely from one room to another, without having to pull the interactive board or screen. The handle is adapted for the mobile variants of our X-series as well as for the SMS Projector Short Throw Mobile Motorized. It is simply hooked into the centre of the pillar on the front or rear of which it can be attached and secured with a lock. The white colour and the design harmonize with the main pillar.

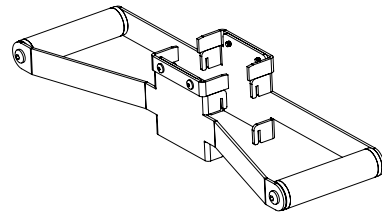

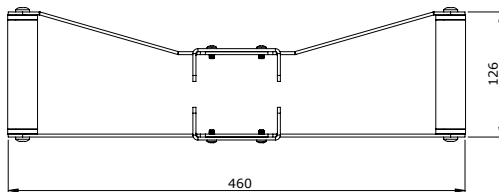

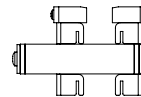

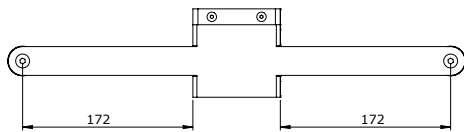

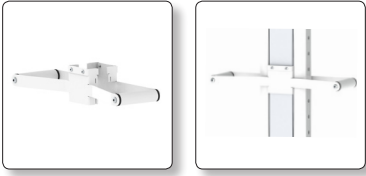

SMS X HANDLE MOBILE

INFO

- Finish: white
- Handle for a simple and safe movement of the mobile variants of the X-series as well as the SMS Projector Short Throw Mobile Motorized.
- Interactive boards or screens do not need to be pulled when rolling.
